DOTHON CITY COUNCIL HAVE REGULAR MEETING LAST NIGHT

Several important matters came up before the body for discussion.

WANT LOT FOR OLD VETERANS

A regular meeting of the city council took place last night at the city hall and the following members were present: Whidton, P. W., Hornsby, Roland and City Dr. M. S. Stough was present and addressed the body that he had been elected to the office of city health officer by the board of physicians wherein he was accepted and his salary fixed at \$14.33 per month or the remainder of the municipal term. The resignation of Dr. W. Howell who held office for some time was then accepted.

Upon motion of alderman Eppes it was resolved to pay the gas from the hills and all other unpaid bills a order.

As a representative of the local chapter of the United Daughters of the Confederacy J. W. Bangham was present and asked that some of the city lots in the cemetery be set aside to the burial of the old soldiers. This matter was referred to Chas. Baldwin chairman of the cemetery committee of the UDC.

Several other minor matters came up for discussion and action before adjourning.

THE GUY PLAYERS

The Guy Players last night presented the feature bill of their repertoire, "Love Rivers." The play was well constructed and was well played by all participants. In particular the weather crowds were moved away from the tent before the curtain was raised, and those that were able to get peanut seats were considerably lucky. Tonight loses the present engagement of the Guy players in this city, but they are promised to return in the fall. The play tonight is "Lesse Times." The Guy players have made a good impression with the Dothan showgoers and the announcement of their return engagement was applauded very much.

ANDREW SAYS HE IS FOR UNDERWOOD

Washington, D. C., March 7.— Senator-elect Vandam of Mississippi, who arrived here today to attend the congressional session, gave a genuine surprise by announcing

that none of the congressmen will be converted that he will vote for the presidential nomination of the Baltimore convention.

Representative Underwood of Alabama until such an announcement has been generally supposed.

It has been generally supposed

that the fiery ex-governor would hardly prefer so conservative a statesman as the distinguished leader of the house of democats.

However, it is well understood in

Washington that there is considerable sentiment in Mississippi for Mr. Underwood as former Senator Montgomery, leader of the senate at the time of his retirement, has died to many of his friends here at his choice, too among the candidates is Representative Underwood.

The talk is that a strong effort

is to be made to secure a delegation

from Mississippi that is favorable

to the Alabama candidate Messer

and Vandam are cousins and they have usually pulled together

in the politics of their state.

AMERICAN WOMAN LEADER OF THE ENGLISH RIOT

COMES TO EXHIBITARY

ON SPECIAL PULLMAN

J. E. McKenzie of Dothan, Ga., accompanied by his brother Hon. Bob McKenzie of Panama City, Fla., and Dr. R. D. Blackhead of this city arrived in Dothan last night on a special Pullman car from Mobile. Mr. J. E. McKenzie, who has been in ill health for some time, will be placed in the Blackshear Infirmary here and his brother will return to Panama City.

U. D. C. GET \$39.35 FROM MOCK TRIAL

WAS ONE OF THE GREAT SUCCESSES OF THE SEASON—HAD A PACKED HOUSE AND MUCH FUN

The United Daughters of the Confederacy celebrated Thursday night \$19.35 from the break of Promise gift that was conducted in the court house.

There has been no performance in Dothan that was more highly applauded than this mock trial and the local Daughters are to be commended for setting up such an entertainment.

Capt. A. E. Pace is the defendant in the suit and Miss Stough was the complainant and a \$200 account of the same sum of the complaint was given.

Capt. A. E. Pace was in court and the expert witness that could not be found for examination.

Mrs. Elizaon, Miss Mary Martin, A. V. Malone made an excellent witness.

Col. Nelson represented the complainant and Col. T. H. Hall the defendant and both made good speeches but it was considered that the speech of Col. Hall's would do credit to any oration delivered in the court.

When the speaking was finished Capt. D. C. Crumlish in his charge to the jury assured them what their verdict must be. He told them that they might have gotten the idea that this was to go into the jury room and after going over the testimony arrive at a verdict but such was not the case. They were to bring in a verdict for the complainant.

Shortly after the jury left the sheriff came back and asked for the man of his honor's signature and returning while their mother announced their verdict \$24.35.

The trial was a success as a farce, and the Guy players have made a good impression with the Dothan showgoers and the announcement of their return engagement was applauded very much.

GILES IS UP AFTER HIS DANGEROUS WOUND

Will Giles, the Bay Lane citizen who was shot and dangerously wounded here several weeks ago is able to be up now but has not yet fully recovered to be at his post of duty again. Giles was shot thru the neck and his body paralyzed by the wound.

McElroy of Dothan.

Jerome S. McVay, the millionaire oil man, said he is a political bungler in Dothan. This by the papers that a lady in high official life recently set down her position as a secretary's wife, explaining that her husband is a servant of the people. When he wrote me, Mr. McVay replied: "In conclusion, be well and a stamp reader who wants it to be his choice. We politicians are the slaves of the rich. No wonder the world is in the front row that the whole world is in favor of slavery & abolition."

Periods for Viewing Meteor.

An examination of the records of shooting star observations made in Dothan during the years 1906 to 1911 shows that the frequency of a meteor in Dothan towards the end of July and the beginning of August. During the first six months of the year the total number of meteors observed in a clear moonless night is only about six per hour. At the beginning of July the frequency increases and at the maximum six meteors per hour on August 10. The mean for the entire year is twelve four meteors per hour.

Hungarian Customs.

According to the testimony offered by Bela Poly, a Hungarian banker in bankruptcy court at Columbus, Ohio, it pays to be a father if you are a Hungarian and live on the south side. Every time a child is born neighbors as the parents from \$30 to \$80. According to Poly he became father five times in five years which netted him \$300 in the neighborhood of \$300. The money is said to have been invested in an insurance policy which was not rendered a few months before the crash of Poly's bank.

The Governing Powers.

Everyone may see that a man is governed by the principles he adopts in life ever so fast and that all his knowledge and reasoning favor his principles. For immovable conduct is slow tending to support themselfes and present themselves to his mind and thus he is confirmed in infidelity. He therefore who practices on a principle that nothing is to be believed until it is seen and understood can never be free for spiritual and celestial things are neither seen with the eyes nor grasped by the imagination. Swedenborg.

Fable Worth Pondering Over.

Good Mr. Wallington stood at the window Sunday afternoon idly watching the bad little boys playing baseball on a vacant lot. The Sabbath breaking little scoundrels, he said. They ought to be arrested every one of them. There should be a rigid or alliance against this description of the Sabbath. Then he railed for the chief thief Jim he said, got out the car and well take a little spin. It's a beautiful day and I am tired of staying in the house. This fable teaches

Worked Hard for Success.

Dr. Luther H. Dulke, director of the department of history of the State Fair Club, came up from the ranks at Oberlin College to become a successful businessman and worked as a book agent. In preparing for college at the high school at Harover, he paid his living expenses by \$400 for odd jobs, working on a farm, at a lumber yard, and working on a boat at the mouth of the University of New York. Night physical training had a little to do with it. Before day work began the cook ate what he made delivery to his customers. Dr. Goff K. was born in Honolulu spent his childhood in Japan and learned the Japanese language, then right. In his younger life he intended to follow his father's footsteps and become a medical missionary.

The Port of Workless Men.

One morning we passed through a small square in Moscow containing nothing but men—wild-eyed long-haired, long-bearded men, men in rags, most of them and all of them compelled to come there to wait to be hired to work. To that square mass all working men who took work daily flocks them while they wait a single small place of black bread each day. Some never leave that square but wait there their lifetime through. They gazed upon our hand some bandit with hungry and wolfish eyes. A week before behold so frightful unkempt a company of homeless hapless hungry human slaves as these Russian working men who waited for a job.—William Seymour Edwards in Through Scandinavia to Moscow.

POULTRY

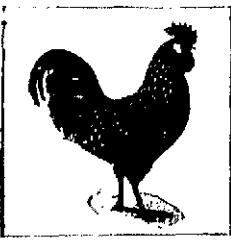

NOTED BREED OF CHICKENS

Fowl Imported From Europe Few Years Ago, Has Gained Much Prestige Among American Poultry.

After studying all the good breeds I finally decided on the *Ancona*, from the ordinary coffee of today. People were accustomed to this the French Market and drink coffee of the delicious beverage. Andrew Jackson, Henry Clay and other famous men partook this rare old French Blend. Price \$1.50 per lb. in New Orleans enjoyed it at the close of the 18th or 19th centuries, and after the daily news.

The noted breed of chickens, imported from Europe but few years ago, has gained great prestige among Juncos in America, and will now have it found a place in the catalog.

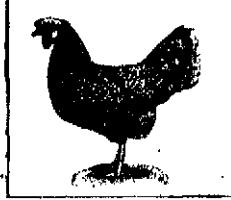

Ancona Cockerel.

tion of those who look upon the Italian side-along of this beautiful, active and ever alert bird, may be willing to an exchange. Its attractive color, beautiful form and graceful carriage, once give it a place among the prime favorites of the coop, in the competitive show, as well as on the table of the poulterer, and the rates of the egg judges.

I have known pullets to lay an average amount of 250 eggs each per year for the entire flock, and this in the cold climate of the northern states.

They are active and hardy and without doubt fourth best in close confinement of any known breed. Their eggs hatch the largest percent of all breeds, because of their superior healthiness. The chicks run forth from incubator or brooding hen as alert as snatched gophers.

Young chickens often crow at the early age of six weeks. Pullets will frequently lay when 12 months old.

Ancona Hen.

when properly cared for, it is my firm belief that on account of their phenomenal growth they will produce more meat by the end of ten weeks after hatching than any other breed of this class, and even some of the larger breeds.

WINTER CARE OF THE DUCKS

Feed Any Green Stuff That Happens to Be Handy—Not Much of Any One Plant Given at Once.

During winter I feed my ducks any green stuff that I happen to have handy. Turnip, parsnip and carrot tops, cabbages, leeks, beet leaves, onion tops, parsnips, pieweed, tender grass, beets, radish, mustard and beet root, all make good, bulky feed. These are dried in the shade during the summer and stored like hay. When I want to feed them a quantity is boiled for 12 hours and mixed with finely cut roots, such as potato, turnip, parsnip, carrots, onion and beets. Apples are also used, says a writer in the Orange Journal. These are all cooked. Not much of one kind of plant is given at a time. Four measures of any out with four of cowpeas, to each of which bacon, red wheat shorts and boiled fresh meat are fed as a mash—all the ducks will eat up clean in few minutes. If any of the mush is left, it is at once removed to avoid its getting sour. This feed is given twice daily during the winter and three times in spring. It is always proved satisfactory.

GREEN FEEDS YEAR AROUND

Nothing Better Than Well Cured Clover Rowen or Second Growth Clover Hay—Bran is Substitute.

Mr. J. E. SCHUGMANN, U. S. Department of Agriculture.

There is nothing better than well cured clover rowen or second growth clover hay. This should be cut up fine and cleaned. Clover is not only highly nutritious, but rich in lime, a substance required by the hens for providing shells for the eggs. Aside from alfalfa there is no other food that can take the place of clover. By allowing a ration of scalded clover to hens they will keep in better laying condition and the production of eggs will be increased. Where clover hay cannot be secured, bran is a very good substitute, though not so rich in mineral matter.

Vegetable food should be supplied the year around, such as cabbage, potato beds and turnips.

Famous Coffee of 200 Years Ago

Over a century ago the old French Market at New Orleans was famous for its delicious coffee. It was quite different from the ordinary coffee of today. People were accustomed to this the French Market and drink coffee of the delicious beverage. Andrew Jackson, Henry Clay and other famous men partook this rare old French Blend. Price \$1.50 per lb. in New Orleans enjoyed it at the close of the 18th or 19th centuries, and after the daily news.

only at the French Market in New Orleans. But NOW you can have it at any place, anywhere. For the real old French Market Coffee is prepared by

so-called white coffee is not made in this old coffee, with all the coffee beans carefully selected and packed in boxes.

This is the famous "French Market Coffee," nearly over French Market Place. No wonder the secret of its food and taste was guarded so carefully for so many years.

Some Happy Sayings.

"Good etiquette," says Judge Pottigill in the Chronicle Tribune, "is looking out of the window while your guest drinks out the finger bowl." Some other opinions handed down by the judge this week were these: "The direct skirts the women are wearing make them look much younger. Some of them, in fact, will be run in by the tawdry sotter and mother in school. If they needn't care!" "The fellow who rates his friends by the size of their pocketbooks is about as good a judge of human values as the girl who won't look at anybody but pretty men!" "What every town needs is not more men to make honest speeches at communal club banquets or street corner meetings, telling how the city government should be run, but more men who will sprinkle salt on their meaty sandwiches."

Settled Their Rows at Home.

The sister of a wife who was being held for divorce was on the witness stand. The attorney for the plaintiff asked her whether she had ever noticed any trouble between her sister and the husband. There never had been any trouble as far as she was able to observe. "Of course," said she, "they had their spats just like all married people—just like me and my husband—but we always make up." "You don't have to come to all sorts of court, then, do you?" asked Judge Van Culler, smiling. "Nope," said the witness, glancing at her husband on the witness bench, "we always settle our troubles at home." "Well," said the judge, "I guess that's the best way," and he resumed his blunt task of siftin' the truth from the evidence presented to him.

New Translation.

While Woodrow Wilson was in Chattanooga on his recent tour one of the points of the program arranged for his entertainment was an automobile sightseeing trip through the city. As the party slowed up from time to time at some particularly interesting point the colored chauffeur volunteered bits of local information. They were passing the new city hall and Mr. Wilson read about the date on the corner stone—1909 A. D. "George," remarked one of the party, addressing the chauffeur, "can you tell us what the A. D. stands for?" "Subtly, boy, subtly!" responded George, without the quiver of an eye. "Why, dat dere 'A. D.' stands for all done!"

**FAIR PERSONS KILLED
IN RAILROAD WRECK**

Social Circle, Ga., March 8.—Four persons were killed and nine injured, six of them seriously, when one passenger train No. 4 of the Georgia Railroad which left Atlanta at mid-night, collided head-on with a freight train three miles from here at 2:45 o'clock this morning.

The dead:
Three negro men and one negro woman whose names unknown.

The injured:
H. L. Nelson, mail clerk of Atlanta, seriously hurt.

Enginner W. P. Daughan of the passenger locomotive whose home is in Augusta, Ga., head and body badly crushed. It is thought he can not recover.

H. W. Carey, mail clerk, of Atlanta, injured severely.

Fred Bailey, baggage master of Atlanta, also injured in hip and back, wounds considered very serious.

Joe Brown, brakeman on the passenger locomotive.

S. A. Pool, mail clerk, Atlanta.

leg broken in three places, injured seriously.

George Reed, porter, hand and face badly wounded, not serious.

W. S. Clark, of Thompson, Ga., passenger, face cut, wounds not serious.

Miss M. G. Farwell and two sons, Charlie and Crowley, and daughter, Miss Evelyn, and their brother returned last night from Montgomery where they have been attending the induction and since themselves.

FROM THE EXCHANGES

Auburn (Ga.) Blazit.—Mr. Broome's work as public examiner has earned him deserved credit and Broome throughout the state.

Albion (N.Y.) Standard.—Mr. Broome is one of the state examiners, and has shown himself to be a man of courage and capacity. No doubt he would be useful in congress.

Tulsa (Okla.) Leader—We immediately note the fact that Mr. Broome is presenting some definite plan to accomplish something for the people whose suffering he sees as

excuse for voting for him.

New Orleans (La.) Advertiser.—We know Mr. Broome well. He was a good attorney and teacher. He made many a thorough and unanimous examiner of recompence therefore we feel sure he will make a good representative in congress.

Birmingham (Ala.) Post.—Mr. Broome is regarded as an exceptionally able business man and an unusually able and convincing speaker. He possesses the ability, the talents and the straightforwardness that evidently qualifies him for service in the halls of congress.

Chattanooga (Tenn.) Advocate.—The Advocate is not at all biased against coming out in the open and doing his best in favor of Mr. Broome for the nomination for congressman at large from Alabama. Not because he was once a quill driver, but because he favors the good roads movement not because of his high character but his unswerving fidelity and his experience in the running of one of the affairs of the government.

Rutherford (N.J.) Chronicle.—Mr. Broome is a high-toned scholarly gentleman, a capable, upright and efficient officer, a newspaper man of ability and integrity, and a person well qualified to represent Alabama in Congress and with pleasure that we record something else that he has received the very highest possible endorsement from the democratic executive committee of his home county in the office to which he applies.

Gainesville (Ga.) Democrt.—H. A. Broome, state examiner of public accounts, came from whose misfortune it is difficult to tell the truth when it might have been suppressed. Mr. Broome is strict and upright with integrity, and is the friend of trusted officials, but is decidedly inclined to the common people. He is very considerate of others, and is always on the lookout for the welfare of the people. He is a man who will always be a credit to the people who

canon be bluffed or scared into a measure which he better judgement and courage honestly tell him is not for the good of the people.

WHITE WAY A SUBWAY.

Owing to the fact that several in the committee were out of the city the council had not yet made up the white way proportion last night at the meeting. However the election of the white way was done over and their would be no trouble now in taking the car to and other towns and the like that may consider a similar plan.
